

SUMMARY of the giftedness concept

There is a strength in every child!

The early recognition and promotion of talents - ie strengths - as well as the development of potential in all children in day care centers and elementary schools in Rosenheim, by external and internal specialists, enables self-determined learning with joy and enthusiasm! Holistic early childhood education, resilience, enjoyment of learning, recognition through orientation for all children!

These are the main goals of the project:

- ✚ The additional free funding offers in most of the five talent areas ensure equal opportunities and a close networking of educational institutions.
- ✚ The facilitated transition from kindergarten to elementary school also ensures that children are free of anxiety and relaxed parenting.
- ✚ Regular joint training sessions and impulsive events for teachers and educators promote contact and mutual understanding so that a rapprochement to "eye level" is possible and potential development becomes a matter of course in the long term.

Five talent areas like the

- sporty motor,
- social-emotional,
- artistic-performing,
- musical and
- intellectuals are equally promoted.

The children choose from the comprehensive course offer according to their interests. The meanwhile around 200 promotional offers include u. a. Acrobatics, climbing, taekwondo, yoga, painting, carving, musicals, theater, Astronomy, philosophy, research and much more ...

External providers such as local clubs, music schools and free providers, the gifts are involved and involved in the daily routine of educational institutions.

Especially gifted children can get financial support for their individual support the Cultural and Social Foundation of the Lord Mayor of the City of Rosenheim a.D. Dr. Michael get horseback.
